### And What Have You

By BOB CRAIG

The Piperettes can take some consolation in the fact that Slaton, the team that defeated them in Bi-District action, went on to win the state championship by defeating Comanche, 51-45 in the finals.

Frenship, the team that defeated the Pipers in Bi-District, did not fare so well as they lost to Friona in the Regional finals, 58-43. Frenship defeated Van Horn, 78-62, in the first round.

In winding up the basketball season we would like to congratulate Leigh Anne Vaughan, Mary Ann Cork, David Willis and Johnny Jones for being selected for All-District honors on the first teams. Mignon Williams, Kathy Hooper and Willie Hooper were named to the second teams and George Titus and Bill Cork were named to the honorable mention list.

Coach Tom Dechario was named Coach of the Year by the district boys' coaches. The girls' coaches did not name a coach of the year.

One can only guess as to where this current rash of kidnappings is going to lead us. Fortunately, the kidnapers of Atlanta Constitution Editor Reg Murphy were quickly caught and maybe this will slow down the temptation for others to get into the act.

Even if we turned this nation into an armed camp there is no way to protect all of the potential kidnap victims. And if the abductors of Patricia Hearst are not caught pretty quick then we can expect more and more of this.

What I can not understand is how the people in California can accept the food being purchased with what must be considered blood money. Personally, I would hope that I would never get that hungry or so low.

Hope that they at least get a bad case of indigestion from eating it.

Those of you who still think that this fuel or energy shortage is just something contrived by the major oil companies, because it came on us so suddenly and without any apparent warning, might be interested in the following.

The Feb. 16, 1935 issue of the "Saturday Evening Post" contained an article by then-Secretary of the Interior Harold Ickes entitled "After the Oil Deluge, What Price Gasoline?"

One of the famed New Dealers of Franklin D. Roosevelt, Ickes discussed the cutthroat oil industry of 1935 and also made some predictions of oil-scarce days to come.

"Someday there will be an end to new discoveries of oil, just as the finish of our present known oil reserve is in sight," wrote Ickes in Depression ravaged 1935. "Our low-cost oil reserves, known or unknown, may last for ten years or twenty years or even thirty years, but they will not last indefinitely. Inevitably there will come a day of scarcity of cheap oil.

"Our oil supply is limited, although cheap oil is necessary to our personal peace and comfort and to our safety as a nation. There is no doubt about our absolute and complete dependence on oil," continued Ickes. "Our entire system of distribution depends on oil. Shut off our supply and our cities would starve in the midst of plenty without facilities to move foodstuffs from the farms. If the trucks and engines of the nation were suddenly stalled, our factories would stand idle. Trade, the lifeblood of our nation, would instantly be at a standstill."

Speaking of the effects of wasteful competition, then rampant in the oil industry, Ickes warned, "To the consumer, the cost at which oil may

FROM THE FILES . . .

FIFTY YEARS AGO  
(February 22, 1924)

In this issue of the Herald, a new firm is announcing for business, to begin March 1. Mrs. S. D. McMahon and Mrs. Naomi Proctor Young are opening up a Grey Shop, in the South Wilson Building, next to the Rest Room. These business women need no special introduction. Already a fine stock of goods are coming in and from the way the store room is looking, a new store will open up that all of Hamlin will appreciate.

With the hope of making Hamlin a cleaner town and one of the prettiest little cities of West Texas, the Civic Committee of the Woman's Literary Club met on Friday of last week with a like committee from the Chamber of Commerce and with County Agent J. R. Masterson, to perfect plans for carrying out a town-wide campaign. It was decided to begin by asking the Mayor to declare the first week in March as a general Clean Up Week. With a cooperative effort on the part of all citizens of the town, every street, alley, yard and vacant lot will be placed in an ideal condition.

Rev. McReynolds requests the Herald to announce that Dr. L. H. Moore of Meridian College, will preach at the Methodist Church, Sunday, Feb. 24. This arrangement has been perfected for some time and it should not be construed that Dr. Moore is taking Rev. McReynolds's place, because the pastor is sick and has been confined to his room for several days.

TWENTY YEARS AGO  
(February 26, 1954)

Jones County's goal for the American Red Cross fund campaign has been set at \$8,000 for this year. Chapter membership to be sought this year is 3,000 members. The drive opens on Thursday, March 4.

Seventeen Future Farmers of America of the Hamlin chapter had posted entries next week for the Abilene District Livestock Show, which will be staged this weekend in Abilene. The Abilene show will feature many of the winners of county shows that have been conducted in the area during the past few weeks.

Texas Public School Week will be observed by the four schools of Hamlin next week, March 1 through 5, with open house and special programs at the various schools. Also the Hamlin Lions Club will hold its regular weekly luncheon at the high school cafeteria, where special programs for the occasion will be given.

The cast for the annual play of the senior class of Hamlin High School

has been selected, sponsors of the group announced this week. The play, "One Wild Night," will be presented March 26, in the high school auditorium.

Numbers of Hamlin area people have been attending the series of lectures being conducted this week at Abilene Christian College. Featured on the program have been outstanding ministers of the Church of Christ. Crowds have numbered between 5,000 and 6,000 attendants at the lectures.

TEN YEARS AGO  
(February 27, 1964)

The Junior High girls won the conference crown in basketball with a win over Anson, 24-8, Feb. 17. The boys were defeated by Anson boys, 27-17. The Hamlin girls showed a great improvement during the latter part of the season and won the district crown with a 5-1 record.

Only 11 persons had qualified to vote by registering in Jones County up to noon Monday, according to Tax Assessor-Collector, A. J. French. Deadline for registering is March 6.

The Hamlin Piperettes will meet Wylie here Thursday evening in a practice game prior to their bi-district contest with Iowa Park in Seymour Tuesday.

March 4 is the final date to release cotton acreage to maintain a farm's history, County ASC Chairman, said Monday. He indicated that fewer farmers than last year were releasing acreage due, he reasoned, to more favorable planting condition.

The Old Glory Pirates gave up an eight-point lead in the fourth quarter Tuesday night to drop their bi-district contest with the Knox City Greyhounds, 53-51.

be secured in the future is the all-important thing. To the oil industry, cost is of no particular concern, since the higher the cost, the more the price to the consumer will be. Regardless of the cost to the industry, it will get its money back, with interest, from all of us who have to buy petroleum and its products. When that time comes, our gasoline bill per gallon may easily be quarters or half dollars where it is now dimes."

Remember this was written in 1935.

THE HIGHEST POINT

A steeple was first built on the town church so that anyone anywhere in the village could look out and locate the house of worship. The steeple on the church was the highest point in town. This was a physical fact and the people of the Lord knew it was a spiritual fact also.

Although a church's steeple is no longer the highest physical point in the city because of all the many-storied buildings and towers, the church itself is still filled with people who have reached the highest point of Godly maturity and who are filled with the highest degree of Christian love for God and man.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

# DON'T THINK CONSERVATION DO IT!

Sometimes we tend to feel that "the other guy" should be more careful about wasting energy. But if we're going to make energy conservation work, all of us...large and small energy consumers alike...will have to keep working at it.

We usually stress all the ways that folks living in homes and apartments can save energy. But what about office buildings and industrial plants? Can't they help too?

Sure. And we'd like to suggest some simple steps for reducing energy consumption for businesses and industrial complexes. These suggestions are based on Lone Star's own efforts to reduce energy use by 11% in our own company.

**Inside Buildings**

1. Alter air temperatures to 68 when heating, and 77 when cooling.
2. Reduce elevator services between the non-peak hours of 9-11:30 a.m. and 2-4 p.m.
3. Reduce light levels in all areas below present levels.
4. Turn off floor lighting completely at 7 p.m., except for cleaning times.
5. When leaving, employees should close blinds and drapes and turn off lights.

**Operation of Vehicles**

1. Encourage employees to observe the state's maximum speed limit of 55 mph on both personal and company vehicles.
2. Establish employee car pools.
3. Print guidelines to distribute to employees who operate company-owned vehicles or machinery for proper use and care.

**Industrial Complexes**

Examine warehouses, plants and maintenance shops to find wasteful energy problems. This includes keeping doors closed when there is no traffic, and avoid overheating large plant areas from heating units located near large exits.

We can all contribute! With your help we can make an even larger contribution to America's energy conservation program in the next four months!

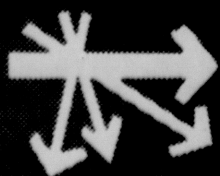

Lone Star Gas

Clean, efficient energy for years to come.

We're out to save you money.  
And we're not kidding!

REWARD OFFERED

Stamford Electric Cooperative, Inc. is offering a \$100.00 reward for information leading to the arrest and conviction of anyone guilty of destroying Cooperative property.

Members should be on the lookout for vandals shooting out Security Lights, shooting insulators or transformers. These acts of vandalism are not only very dangerous to those who are responsible for such acts, but are also a very real threat to the life and property of others.

An electrical wire hanging low, because the insulator supporting it has been shot away, could be very deadly to anyone or anything coming in contact with it.

These acts of vandalism, besides being aggravating, when they cause your electricity to be off, become very costly in materials damaged and time spent to replace and repair the damage.

# School Conducting Census Program for Pre-Schoolers

Larry Butler, principal of Elementary School is requesting the names and birth dates of all children born between Sept. 1, 1968, and Aug. 31, 1969, to complete the records needed for registration for Kindergarten for the school year of 1974-75. Many parents not having children already in school have not furnished this information and parents need to call 576-3191 to report census information.

Hamlin Elementary School has in the primary school building an Early Childhood class for children ages 3 and 4 years of age who might experience a learning difficulty at the time of entrance into kindergarten. Because of this, plus other programs in the planning stages, the school urges all parents with children under 5 years of age, to call 576-3191 and give the names and birthdates of their pre-school children. A screening test for all 3,4 and 5-year-old children has been set up for March 4, 5, and 6. Appointments may be made by calling the above number.

All children starting kindergarten in August, 1974 must have a State Birth Certificate. (A certificate from a hospital or a baptismal certificate will not be

sufficient). State birth certificates can be obtained by writing the County Clerk in the County in which the child was born, including the child's name, birth date, birth place, father's full name, mother's maiden name and by enclosing \$2.00 for each certificate needed. The certificate will be mailed.

If a child was born in the city of Hamlin, a birth certificate may be obtained by giving the above information to the City Registrar office of the McCoy Funeral Home. Certificates for Hamlin births cost \$1.00 each.

According to the immunization law for the State of Texas, all children starting kindergarten must have had the following immunizations:

(1) the 3-shot series of diphtheria-tetanus-whooping cough, plus a booster since the fourth birthday. (2) the 3-dose series of polio, plus a booster since the fourth birthday. (3) Measles (Rubeola shot) (4) 3-day measles (Rubella shot). No child will be enrolled without their immunizations and state birth certificate. Parents must furnish proof of their child's immunizations by furnishing this information signed by a doctor, a clinic, or

health nurse.

The elementary school will not have any pre-school immunization clinics this year. Children who need immunizations and the parents find it financially hard for them to go to their family doctor, may take advantage of the free clinic held in Stamford each second Tuesday of the month in the Community Kindergarten building (near Kinney Funeral Home) from 5 to 7 p.m. There is also a free clinic in Haskell one time a month but the information is not available at this time.

If a child has a Social Security number the number should be given the school along with the child's immunization record and birth certificate to school for registration. This law is not being enforced yet, but at some time in the future each child will need to have their social security number shown on their enrollment card. Application for a card and number may be made by writing to the Social Security office, post office building, Abilene.

Principal Butler said, "We urge all parents with enrolling kindergarten children for the next school year to bring their children's immunization records, their birth certificate, and their social security number to the elementary school office as soon as possible. Also, we urge parents with any age pre-school child to call 576-3191 and give us the information of your child so they will not miss out on any programs or classes that might be available to make their beginning school an easier process."

## NEWS AND VIEWS...

### And What Have You

By BOB CRAIG

The Piperettes can take some consolation in the fact that Slaton, the team that defeated them in Bi-District action, went on to win the state championship by defeating Comanche, 51-45 in the finals.

Frenship, the team that defeated the Pipers in Bi-District, did not fare so well as they lost to Friona in the Regional finals, 58-43. Frenship defeated Van Horn, 78-62, in the first round.

In winding up the basketball season we would like to congratulate Leigh Anne Vaughan, Mary Ann Cork, David Willis and Johnny Jones for being selected for All-District honors on the first teams. Mignon Williams, Kathy Hooper and Willie Hooper were named to the second teams and George Titus and Bill Cork were named to the honorable mention list.

Coach Tom Dechario was named Coach of the Year by the district boys' coaches. The girls' coaches did not name a coach of the year.

One can only guess as to where this current rash of kidnappings is going to lead us. Fortunately, the kidnappers of Atlanta Constitution Editor Reg Murphy were quickly caught and maybe this will slow down the temptation for others to get into the act.

Even if we turned this nation into an armed camp there is no way to protect all of the potential kidnap victims. And if the abductors of Patricia Hearst are not caught pretty quick then we can expect more and more of this.

What I can not understand is how the people in California can accept the food being purchased with what must be considered blood money. Personally, I would hope that I would never get that hungry or so low.

Hope that they at least get a bad case of indigestion from eating it.

Those of you who still think that this fuel or energy shortage is just something contrived by the major oil companies, because it came on us so suddenly and without any apparent warning, might be interested in the following.

The Feb. 16, 1935 issue of the "Saturday Evening Post" contained an article by then-Secretary of the Interior Harold Ickes entitled "After the Oil Deluge, What Price Gasoline?"

One of the famed New Dealers of Franklin D. Roosevelt, Ickes discussed the cutthroat oil industry of 1935 and also made some predictions of oil-scarce days to come.

"Someday there will be an end to new discoveries of oil, just as the finish of our present known oil reserve is in sight," wrote Ickes in Depression ravaged 1935. "Our low-cost oil reserves, known or unknown, may last for ten years or twenty years or even thirty years, but they will not last indefinitely. Inevitably there will come a day of scarcity of cheap oil."

"Our oil supply is limited, although cheap oil is necessary to our personal peace and comfort and to our safety as a nation. There is no doubt about our absolute and complete dependence on oil," continued Ickes. "Our entire system of distribution depends on oil. Shut off our supply and our cities would starve in the midst of plenty without facilities to move foodstuffs from the farms. If the trucks and engines of the nation were suddenly stalled, our factories would stand idle. Trade, the lifeblood of our nation, would instantly be at a standstill."

Speaking of the effects of wasteful competition, then rampant in the oil industry, Ickes warned, "To the consumer, the cost at which oil may

FROM THE FILES . . .

FIFTY YEARS AGO  
(February 22, 1924)

In this issue of the Herald, a new firm is announcing for business, to begin March 1. Mrs. S. D. McMahon and Mrs. Naomi Proctor Young are opening up a Grey Shop, in the South Wilson Building, next to the Rest Room. These business women need no special introduction. Already a fine stock of goods are coming in and from the way the store room is looking, a new store will open up that all of Hamlin will appreciate.

With the hope of making Hamlin a cleaner town and one of the prettiest little cities of West Texas, the Civic Committee of the Woman's Literary Club met on Friday of last week with a like committee from the Chamber of Commerce and with County Agent J. R. Masterson, to perfect plans for carrying out a town-wide campaign. It was decided to begin by asking the Mayor to declare the first week in March as a general Clean Up Week. With a cooperative effort on the part of all citizens of the town, every street, alley, yard and vacant lot will be placed in an ideal condition.

Rev. McReynolds requests the Herald to announce that Dr. L. H. Moore of Meridian College, will preach at the Methodist Church, Sunday, Feb. 24. This arrangement has been perfected for some time and it should not be construed that Dr. Moore is taking Rev. McReynold's place, because the pastor is sick and has been confined to his room for several days.

TWENTY YEARS AGO  
(February 26, 1954)

Jones County's goal for the American Red Cross fund campaign has been set at \$8,000 for this year. Chapter membership to be sought this year is 3,000 members. The drive opens on Thursday, March 4.

Seventeen Future Farmers of America of the Hamlin chapter had posted entries next week for the Abilene District Livestock Show, which will be staged this weekend in Abilene. The Abilene show will feature many of the winners of county shows that have been conducted in the area during the past few weeks.

Texas Public School Week will be observed by the four schools of Hamlin next week, March 1 through 5, with open house and special programs at the various schools. Also the Hamlin Lions Club will hold its regular weekly luncheon at the high school cafeteria, where special programs for the occasion will be given.

The cast for the annual play of the senior class of Hamlin High School

has been selected, sponsors of the group announced this week. The play, "One Wild Night," will be presented March 26, in the high school auditorium.

Numbers of Hamlin area people have been attending the series of lectures being conducted this week at Abilene Christian College. Featured on the program have been outstanding ministers of the Church of Christ. Crowds have numbered between 5,000 and 6,000 attendants at the lectures.

TEN YEARS AGO  
(February 27, 1964)

The Junior High girls won the conference crown in basketball with a win over Anson, 24-8, Feb. 17. The boys were defeated by Anson boys, 27-17. The Hamlin girls showed a great improvement during the latter part of the season and won the district crown with a 5-1 record.

Only 11 persons had qualified to vote by registering in Jones County up to noon Monday, according to Tax Assessor-Collector, A. J. French. Deadline for registering is March 6.

The Hamlin Piperettes will meet Wylie here Thursday evening in a practice game prior to their bi-district contest with Iowa Park in Seymour Tuesday.

March 4 is the final date to release cotton acreage to maintain a farm's history, County ASC Chairman, said Monday. He indicated that fewer farmers than last year were releasing acreage due, he reasoned, to more favorable planting condition.

The Old Glory Pirates gave up an eight-point lead in the fourth quarter Tuesday night to drop their bi-district contest with the Knox City Greyhounds, 53-51.

And What Have You

be secured in the future is the all-important thing. To the oil industry, cost is of no particular concern, since the higher the cost, the more the price to the consumer will be. Regardless of the cost to the industry, it will get its money back, with interest, from all of us who have to buy petroleum and its products. When that time comes, our gasoline bill per gallon may easily be quarters or half dollars where it is now dimes."

Remember this was written in 1935.

THE HIGHEST POINT

A steeple was first built on the town church so that anyone anywhere in the village could look out and locate the house of worship. The steeple on the church was the highest point in town. This was a physical fact and the people of the Lord knew it was a spiritual fact also.

Although a church's steeple is no longer the highest physical point in the city because of all the many-storied buildings and towers, the church itself is still filled with people who have reached the highest point of Godly maturity and who are filled with the highest degree of Christian love for God and man.

# DON'T THINK CONSERVATION DO IT!

Sometimes we tend to feel that "the other guy" should be more careful about wasting energy. But if we're going to make energy conservation work, all of us...large

and small energy consumers alike... will have to keep working at it.

We usually stress all the ways that folks living in homes and apartments can save energy. But what about office buildings and industrial plants? Can't they help too?

Sure. And we'd like to suggest some simple steps for reducing energy consumption for businesses and industrial complexes. These suggestions are based on Lone Star's own efforts to reduce energy use by 11% in our own company.

### Inside Buildings

1. Alter air temperatures to 68 when heating, and 77 when cooling.
2. Reduce elevator services between the non-peak hours of 9-11:30 a.m. and 2-4 p.m.
3. Reduce light levels in all areas below present levels.
4. Turn off floor lighting completely at 7 p.m., except for cleaning times.
5. When leaving, employees should close blinds and drapes and turn off lights.

### Operation of Vehicles

1. Encourage employees to observe the state's maximum speed limit of 55 mph on both personal and company vehicles.
2. Establish employee car pools.
3. Print guidelines to distribute to employees who operate company-owned vehicles or machinery for proper use and care.

### Industrial Complexes

Examine warehouses, plants and maintenance shops to find wasteful energy problems. This includes keeping doors closed when there is no traffic, and avoid overheating large plant areas from heating units located near large exits.

We can all contribute! With your help we can make an even larger contribution to America's energy conservation program in the next four months!

Lone Star Gas

Clean, efficient energy for years to come.

We're out to save you money.  
And we're not kidding!

REWARD OFFERED

Stamford Electric Cooperative, Inc. is offering a \$100.00 reward for information leading to the arrest and conviction of anyone guilty of destroying Cooperative property.

Members should be on the lookout for vandals shooting out Security Lights, shooting insulators or transformers. These acts of vandalism are not only very dangerous to those who are responsible for such acts, but are also a very real threat to the life and property of others.

An electrical wire hanging low, because the insulator supporting it has been shot away, could be very deadly to anyone or anything coming in contact with it.

These acts of vandalism, besides being aggravating, when they cause your electricity to be off, become very costly in materials damaged and time spent to replace and repair the damage.

# School Conducting Census Program for Pre-Schoolers

Larry Butler, principal of Elementary School is requesting the names and birth dates of all children born between Sept. 1, 1968, and Aug. 31, 1969, to complete the records needed for registration for Kindergarten for the school year of 1974-75. Many parents not having children already in school have not furnished this information and parents need to call 576-3191 to report census information.

Hamlin Elementary School has in the primary school building an Early Childhood class for children ages 3 and 4 years of age who might experience a learning difficulty at the time of entrance into kindergarten. Because of this, plus other programs in the planning stages, the school urges all parents with children under 5 years of age, to call 576-3191 and give the names and birthdates of their pre-school children. A screening test for all 3,4-and 5-year-old children has been set up for March 4, 5, and 6. Appointments may be made by calling the above number. All children starting kindergarten in August, 1974 must have a State Birth Certificate. (A certificate from a hospital or a baptismal certificate will not be

sufficient). State birth certificates can be obtained by writing the County Clerk in the County in which the child was born, including the child's name, birth date, birth place, father's full name, mother's maiden name and by enclosing \$2.00 for each certificate needed. The certificate will be mailed.

If a child has been in the city of Hamlin, a birth certificate may be obtained by giving the above information to the City Registrar office of the McCoy Funeral Home. Certificates for Hamlin births cost \$1.00 each.

According to the immunization law for the State of Texas, all children starting kindergarten must have had the following immunizations: (1) the 3-shot series of diphtheria-tetanus-whooping cough, plus a booster since the fourth birthday. (2) the 3-dose series of polio, plus a booster since the fourth birthday. (3) Measles (Rubeola shot) (4) 3-day measles (Rubella shot). No child will be enrolled without their immunizations and state birth certificate. Parents must furnish proof of their child's immunizations by furnishing this information signed by a doctor, a clinic, or

health nurse.

The elementary school will not have any pre-school immunization clinics this year. Children who need immunizations and the parents find it financially hard for them to go to their family doctor, may take advantage of the free clinic held in Stamford each second Tuesday of the month in the Community Kindergarten building (near Kinney Funeral Home) from 5 to 7 p.m. There is also a free clinic in Haskell one time a month but the information is not available at this time.

If a child has a Social Security number the number should be given the school along with the child's immunization record and birth certificate to school for registration. This law is not being enforced yet, but at some time in the future each child will need to have their social security number shown on their enrollment card. Application for a card and number may be made by writing to the Social Security office, post office building, Abilene.

Principal Butler said, "We urge all parents with enrolling kindergarten children for the next school year to bring their children's immunization records, their birth certificate, and their social security number to the elementary school office as soon as possible. Also, we urge parents with any age pre-school child to call 576-3191 and give us the information of your child so they will not miss out on any programs or classes that might be available to make their beginning school an easier process."
